|----------------------------------------------------------|-----|----------------|--------------|
| Now that she new there was no chance of getting well at  | (a) |                |              |
| ones, the days dragged dreadfully. She lost heart about  | (b) |                |              |
| herself and took no interest in something. Aunt Izzie    | (c) |                |              |
| brought her books, but she didn't want to reed, or to    | (d) |                |              |
| see. Everything amused her. Clover and Cecy would        | (e) |                |              |
| come and sit with her, but hearing them tell about there | (f) |                |              |
| plays maid her cry so miserably that Aunt Izzie wouldn't | (g) |                |              |
| let them come often. They was very sorry for Katy, but   | (h) |                |              |
| they didn't mind much not being allow to see her.        | (i) |                |              |

| Passage                                                   |     | Incorrect Word | Correct Word |
|-----------------------------------------------------------|-----|----------------|--------------|
| Emmeline Pankhurst was born in England on 1858.           | (a) |                |              |
| She was born in a family that has a long history of       | (b) |                |              |
| political and social activism. Note surprisingly, she     | (c) |                |              |
| grow up to be a champion of women's suffrage, or          | (d) |                |              |
| the rite to vote. During her lifetime, she held different | (e) |                |              |
| municipal office. As a Poor Law Guardian and a            | (f) |                |              |
| Registrar of births and deaths, she is a witness to the   | (g) |                |              |
| inferior position of womans in society and their legal    | (h) |                |              |
| and socially oppression by men.                           | (i) |                |              |

| Passage                                                 |     | Incorrect Word | Correct Word |
|---------------------------------------------------------|-----|----------------|--------------|
| Monday morning find Tom Sawyer miserable. It always     | (a) |                |              |
| found him sow because it began another week's           | (b) |                |              |
| suffering in school. Tom lied thinking. Presently it    | (c) |                |              |
| occurred too him that he wished he was sick; then he    | (d) |                |              |
| can stay home from school. Suddenly he discovered       | (e) |                |              |
| something. One of his upper front tooth was loose.      | (f) |                |              |
| This is lucky. He was about to begin to groan, as a     | (g) |                |              |
| "starter", as he calls it, when it occurred to him that | (h) |                |              |
| if he came into court by that argument, his aunt would  | (i) |                |              |
| pull it out, and that will hurt .                       | (j) |                |              |

| Passage                                                   |     | Incorrect Word | Correct Word |
|-----------------------------------------------------------|-----|----------------|--------------|
| The microwave oven does not come about as a result of     | (a) |                |              |
| someone try to find a better, faster way to cook. During  | (b) |                |              |
| World War II, two scientists invent the magnetron, a      | (c) |                |              |
| tube who produces microwaves. Installing magnetrons       | (d) |                |              |
| in Britain's radar system, the microwaves was able        | (e) |                |              |
| to spot Nazi warplane on their way to bomb the British    | (f) |                |              |
| Isles. Incidental, several years later, it was discovered | (g) |                |              |
| that microwaves also cooks food. Called the radar range,  | (h) |                |              |
| the first microwave was as heavier as a refrigerator.     | (i) |                |              |

| Passage                                                        |     | Incorrect Word | Correct Word |
|----------------------------------------------------------------|-----|----------------|--------------|
| Long before, in a little village in India, there lived a child | (a) |                |              |
| name Jaya. One day Gautam Buddha came to his                   | (b) |                |              |
| village. The child watched fascinating. He could not           | (c) |                |              |
| take his eyes of the face of Buddha, the quiet calm look,      | (d) |                |              |
| the deep dark eyes, the heir of contentment. He could          | (e) |                |              |
| not understood much of what Buddha said, but                   | (f) |                |              |
| marvel instead at the sound of his voice, soft, serene,        | (g) |                |              |
| and full of kindness. The men and women listen to              | (h) |                |              |
| Buddha enthralled.                                             |     |                |              |

| Passage                                                   |     | Incorrect Word | Correct Word |
|-----------------------------------------------------------|-----|----------------|--------------|
| Far away in a lonely island, there lived a wise old man   | (a) |                |              |
| and his daughter. A man was Prospero, a magician.         | (b) |                |              |
| The daughter was Miranda, a lovely old lady of            | (c) |                |              |
| sixteen. Prospero knows so much of the art of magic that  | (d) |                |              |
| he was unable to command the spirits of the island to     | (e) |                |              |
| obey him. The chief of these gentle spirit was Ariel,     | (f) |                |              |
| a lively little creature who was not only devoting to his | (g) |                |              |
| master but also full of mischiefs. Ariel was invisible to | (h) |                |              |
| all eyes except Prosperos.                                | (i) |                |              |
